Purpose

The purpose of Bethel United Methodist Weekday School is to give children their first exposure to education and social development within a Christian environment. It is our purpose to make available to each child a wide variety of educational experiences to meet the individual needs of the child at his/her own developmental level and to socially guide the child to respect others while striving for personal excellence. In order to accomplish these goals, the essential element is an atmosphere in which to promote a strong Christian foundation on which to build a future.
